

PUBLIC NOTICE

Houston Southeast has determined the Disadvantaged Business Enterprise (“DBE”) goals it will use towards its upcoming Federal Transit Administration (“FTA”) assisted capital projects for FY 2018 - FY 2020. Your input is appreciated. There is a public comment period that will begin May 24, 2017 and end June 22, 2017. To give us your feedback, please go to our website at www.houstonse.org. Under the “Notices” tab, you will find more information. Visit our website regularly to become aware of notices of project solicitations.

Houston Southeast is anticipated to actively pursue up to \$10,000,000 in FTA funding for eligible streetscape, bicycle and trail projects within the district’s boundaries over the next three years. These projects are contained within the recently completed Joint Infrastructure Plan. Both contractors and professional service providers will be sought out. We cannot define the projects specifically at this time because that level of detail is still to be determined.

Houston Southeast has set its overall annual DBE goal which is proposed at 13.5% through race-neutral means. The overall goal is composed of 100% race-neutral participation and 0% race-conscious participation. Copies of the DBE goal calculations are available for review on the district website and at its office during normal business hours.
